

FREEDOM TO MOVE

STORAGE UNIT PACKING TIPS

- 1 ADD PROTECTION**
Place soft cloths or cardboard underneath mattresses, couches, boxes and beds to keep them protected.
- 2 BUILD A FOUNDATION**
Place large heavy items at the rear of the unit. Then work forwards and upwards with lighter fragile items.
- 3 ROOM TO BREATHE**
Don't lean items against the walls. Leave air space around the perimeter to aid ventilation.
- 4 EASY ACCESS**
Pack items you want to access in storage into the truck first. That way they'll be packed into the unit last, near the door.
- 5 IMPORTANT THINGS**
Store important documents and small items like, keys and remote controls, in one box, so they can be easily found.
- 6 USE ALL THE SPACE**
Label boxes on all sides for easy locating. You can use the space inside cupboards, fridges, etc.. to store boxes.
- 7 COVER AND UPEND**
Protect mattresses and soft furnishings with mattress and lounge covers. Store couches on their end to maximise space.
- 8 KEEP MIRRORS VERTICAL**
Wrap with bubble wrap and use mirror boxes. Store upright and secure them between soft items like mattresses.
- 9 CLEAN AND EMPTY WHITE GOODS**
Defrost and clean refrigerator and freezer and store with doors ajar. Make sure all water is drained out of washing machines.
- 10 STACK SECURELY**
Check that everything is stacked securely and not too high. Falling items can injure you or be damaged.

We sell a full range of moving boxes and packing supplies on site and online at low prices.
